We use *high-tech diagnostic equipment* to guarantee your vehicle is repaired and/or serviced correctly the *first time* around, and we only use the *highest quality* replacement parts, filters, oils, and components when it comes to your car.

WHAT TO DO WHEN YOU SEE

THIS LIGHT

The TPMS indicator is a light on the dashboard that indicates that your tire pressure may be low and should be checked.

The purpose of the TPMS (Tire Pressure Monitoring System) is to alert you when tire pressure is too low and could to create unsafe driving conditions.

A properly inflated tire will reduce tread movement, reduce rolling resistance, and increase water dispersion.

Both overinflation and underinflation can cause premature tread wear and possible tire failure.

THE TPMS MAY HAVE LIMITATIONS SUCH AS:

The TPMS warning light may be set to illuminate below the tire pressure needed to carry the load in the vehicle.

The sensor(s) may not be accurately transmitting tire pressure data to the on-board computer.

The system may not be able to accurately determine if a tire is too low if other tires are losing pressure at the same rate.

\$24⁹⁹

OIL CHANGE

4 Quarts Conventional Oil & Filter

With this card. Not to be combined with any other offer.

YOUR FUEL INJECTORS ARE DIRTY!

Does Your Car Have Any Of These Symptoms?

**INSUFFICIENT POWER | POOR FUEL ECONOMY
SLOW ENGINE RESPONSIVENESS
ENGINE NOISE | ROUGH IDLING**

**ANY OF THESE PROBLEMS COULD BE CAUSED
BY DIRTY FUEL INJECTORS.**

What is a fuel injector?

A fuel injector is a device that pumps fuel under high pressure through a nozzle in an internal combustion engine. It has a significant impact on the fuel efficiency, exhaust and output performance.

WHY DO THE INJECTORS NEED CLEANING?

Gasoline engines generate power by pre-mixing injected fuel and air and then igniting the mixture with precision timing. Over time, the fuel injectors become clogged with deposits of fuel impurities and accumulated carbon deposits. Thus, cleaning is vital for maintaining normal Fuel economy & performance
